

Hana Shurafa's sketch:

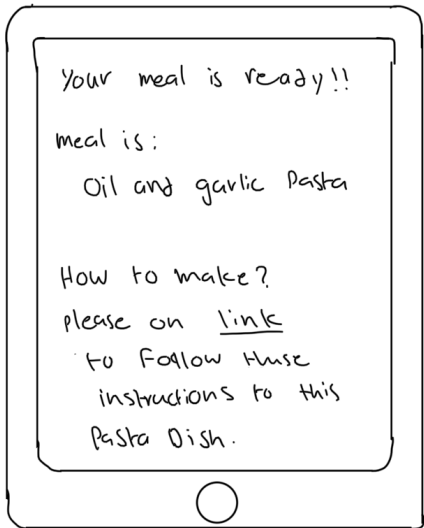

if you are not a member already then you can create an account and if you are please enter your name and pass

The app is welcoming us then guiding us to a step by step method to enter what we have

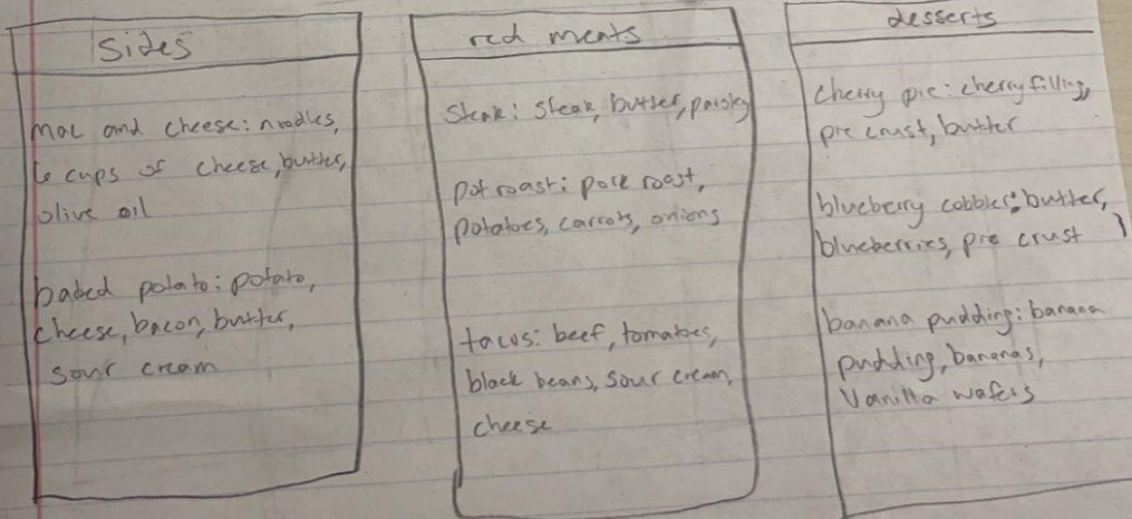

After the app has gotten the ingredients from the user its using them to cook up a meal for us and tell us how

The App has finally loaded and displays the meal with instructions for meal from a website.

The sketch depicts a mobile application screen with a rounded rectangular border. At the top, there is a horizontal bar containing a small circle on the right. Below this bar, the text "Select a recipe" is centered. Underneath the text is a table with four rows. Each row contains a small icon on the left, a recipe name in the middle, and a time range in minutes on the right. The icons are: a hot dog, a burger, a square with a diagonal line, and a sandwich. Below the table is a horizontal bar with a left-pointing arrow on the left side. At the bottom of the screen is a small circle, representing a home button.

Icon	Recipe Name	Time (minutes)
	Hot dogs	20-30 minutes
	Classic burger	30-40 minutes
	Grilled Cheese	5-10 minutes
	Sandwich	0-5 minutes

Select a recipe to get one.
It's possible to scroll to see more.
